

REMARKS

Claims 1 – 49 are pending in this application. Claim 47 is objected to as to its form. Claims 32-35, 37-38, 40-43, 45-49 have been rejected under 35 USC §102(e) as allegedly anticipated by US Patent No. 5,875,192 issued to Cam. Claims 1-10, 12-30, 36 and 44 have been rejected under 35 USC §103(a) as allegedly unpatentable over US Patent No. 5,875,192 issued to Cam in view of US Patent No. 6,574,221 issued to Peterson. Claims 11, 31 and 39 are objected to as being dependent from a rejected base claim, but would otherwise be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. Applicant respectfully traverses the rejections to the extent they are applicable to the claims as now amended.

Please cancel claims 2, 11-20, 22, 31 and 39-49. The claims are canceled without prejudice. The applicant reserves the right to prosecute these claims in the future..

Claim 1 is amended to incorporate the inventive features of allowable claim 11 including the features of the intervening claims. Claim 21 is amended to incorporate the allowable inventive features of claim 31 including the features of the intervening claims. Claim 32 is amended to incorporate the allowable inventive features of claim 39. Therefore, the claims as now amended are allowable because allowable claims 11, 31 and 39 have been rewritten in independent form including all of the limitations of the base claim and any intervening claims.
